

*Your keys, securely stored,  
remotely accessible.*

REAL TIME  
MANAGEMENT

EQUALITY ACT 2010  
COMPLIANT

## INTELLIGENT & CONNECTED

### SAFE STORAGE

The keys for the building are where you want them to be – on site.

### AVAILABILITY

- Set access rights to the IPKEYSAFE™.
- Full audit trail for your keys.

### REAL TIME ALARMS & ALERTS

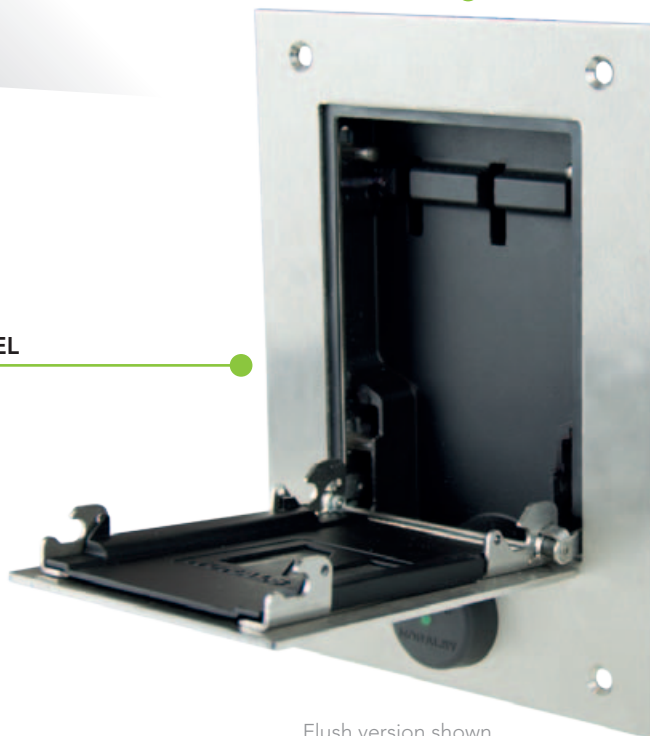

Forced door or door not properly closed monitoring:

- Alarm sounds
- Send SMS / Email alert

### STRONG, 316 GRADE S.STEEL

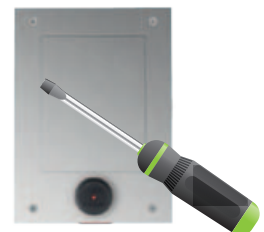

- Everything is stainless steel.
- IK09 rated.

IK09  
5 kg

### ANTI-VANDAL DESIGN

Flush version shown.  
Also available surface.

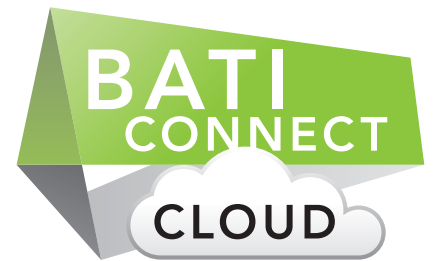

## COMPACT YET SPACIOUS

- 3no sets of keys holding a maximum of 9no keys.
- Maximum key height 12cm.

# REAL TIME MANAGEMENT WITH FULL INFORMATION

Using our BATICONNECT (Cloud) platform,  
manage your IPKEYSAFE™ remotely, in real time.

## CHOOSE MEANS OF OPENING YOUR IPKEYSAFE™

Proximity  
keyfobs

Keypad code  
access for facilities

Telephone

Dial the modem from an  
authorised telephone number  
to open the IPKEYSAFE™.

## PROGRAM AUTHORISATION LEVELS AS YOU WISH

Date period  
validity

Example: From  
28th Sept – 14th Dec 2016

Time zone  
validity

Example: from  
0800 – 2000hrs Mon-Fri

Door / Gate  
validity

Create door/gate authorisation  
profiles and include IPKEYSAFE™  
authorisation for certain individuals.

Or, open the IPKEYSAFE™ directly via BATICONNECT (Cloud).

Or, include it as part of any  
IPGUARD® visitor entrance  
panel. It is up to you!

## KEEP TRACK OF WHO HAS USED THE KEYS

Every set of keys is identified by its location in the IPKEYSAFE™.

BATICONNECT gives you:

- Real-time status of the keys.....IN or OUT.
- A log of all events so you can identify the last user.
- An alert via SMS/Email if keys are not put back,  
if the door has not been closed properly, or if attacked.
