

PROJECT PORTRAIT — IPGUARD® SMART DOOR ENTRY TECHNOLOGY

A block of 10no housing association flats.

**CROSSWAYS HOUSE,
STOKE NEWINGTON, LONDON N16**
Fairview New Homes for Newlon Housing Trust

Smart visitor door entry and access control

ACCESS ■ COMMUNICATIONS ■ CCTV

The visitor entrance has an IPGUARD® Smart Audio/Visual visitor panel calling residents, and Newlon HA's remote management offices – anybody who needs to be called.

IPGUARD® is smart phone technology installed outside any door or gate and which enables:

1. Visitors to call whomever, there are no limitations.
2. Residents, On/Off site facilities staff to open doors, gates.
3. Management to have total remote programming control and log feedback.

The list of features for residents includes logs of all their visitors, including missed calls. Please refer to the IPGUARD® brochure for full details.

Residents answer calls from visitors on their own communications devices. It is so simple, they use what they already have. Every visitor call is fully logged; date, time, duration and whether the resident opened the door. That's genuine management information feedback, providing security improvements for all!

Bike and bin stores proximity reader controlled.

CROSSWAYS HOUSE, STOKE NEWINGTON, LONDON N16

IPGUARD® is smart audio/visual visitor door entry and resident access control using smartphone technology. It provides complete flexibility, control and peace of mind for the resident – any time and anywhere.

BATICONNECT ANTI-CLONE PROTECT™

The most important security requirement: **GUARANTEED** protection against unauthorised entry into buildings using multiples of a copied/cloned proximity key, and the same for radio transmitters for vehicle gates!

- Attempted fraudulent entry logged and alerts generated for management.
- Forever upgradeable via BATICONNECT CLOUD™.
- 24/7/365 remote access for management for all programming, resident and visitor data etc, www.baticonnect.com (no software required).
