

PROJECT PORTRAIT — IPGUARD® SMART DOOR ENTRY TECHNOLOGY

A mix of private and social housing. 13no blocks, 230no flats.

GERON WAY, CRICKLEWOOD, LONDON NW2

*Higgins Construction for
A2 Dominion Housing Association*

Smart visitor door entry and access control

ACCESS ■ COMMUNICATIONS ■ CCTV

All visitor entrances have IPGUARD® smart audio/visual panels calling residents, on-site concierge, and remote management offices when unattended.

IPGUARD® is smart phone technology installed outside any door or gate and which enables:

1. Visitors to call whomever, there are no limitations.
2. Residents, On/Off site facilities staff to open doors, gates.
3. Management to have total remote programming control and log feedback.

The list of features for residents includes logs of all their visitors, including missed calls. Please refer to the IPGUARD® brochure for full details.

Residents answer calls from visitors on their own communications devices. It is so simple, they use what they already have.

All doors from the car park into the blocks, all bike stores, bin stores, pedestrian gates into the car park and gym are proximity reader access controlled.

230 FLATS AT GERON WAY, CRICKLEWOOD, LONDON NW2

IPGUARD® is smart audio/visual visitor door entry and resident access control using smartphone technology. It provides complete flexibility, control and peace of mind for the resident – any time and anywhere.

BATICONNECT ANTI-CLONE PROTECT™

The most important security requirement: **GUARANTEED** protection against unauthorised entry into buildings using multiples of a copied/cloned proximity key, and the same for radio transmitters for vehicle gates!

- Attempted fraudulent entry logged and alerts generated for management.
- Forever upgradeable via BATICONNECT CLOUD™.
- 24/7/365 remote access for management for all programming, resident and visitor data etc, www.baticonnect.com (no software required).
