**ADMINISTRATOR** Total rights

#### ALERT NOTIFICATIONS

SMS / Email notifications of forced doors, faults on third party systems etc.

#### **COMMUNICATE DIRECTLY** WITH RESIDENTS

Send SMS messages directly to your residents.

#### **EVENT LOGS**

Date and time stamp of all system events and plenty more...

# **OPTION 1 BATICONNECT CLOUD® SERVICE**

## Monthly BATICONNECT CLOUD® SERVICE subscription

Number of dwellings serviced	cost for the m	monthly subscription ain (one) IPGUARD the block/site	For configurations not shown, the monthly all-inclusive BATICONNECT <sup>®</sup> CLOUD Service subscription cost will be detailed on quotation.	
1 to 4	£12	£12 / month All proximity readers, radius receivers, keypads on all		
5 to 10	£18	/ month	doors, lifts and gates are also automatically INCLUDED within the BATICONNECT <sup>®</sup> CLOUD Service.	
11 to 20	£24	/ month		
Over 20 flats	Add £1.20 per extra flat			
Price per extra IPGUARD panel per month (secondary panels on the block/site)		£18 / month		

**EXAMPLE 1** My block has 12 flats and 1no IPGUARD panel servicing all 12 flats. Total cost for the entire block (NOT per flat) =  $\pm 24 + VAT$  per month (equates to  $\pm 2.00 + VAT$  per flat per month).

**EXAMPLE 2** My block has 12 flats. It has 1no IPGUARD panel on the vehicle gate, and 1no IPGUARD on the main block entrance. So 2no IPGUARD panels each servicing the same 12 flats. Total cost for the entire block (NOT per flat) =  $\pm 24 + \pm 18 = \pm 42 + \text{VAT}$  per month (equates to  $\pm 3.50 + \text{VAT}$  per flat per month).

**EXAMPLE 3** My block has 25 flats. It has 1no IPGUARD panel on the main block entrance, 1no IPGUARD on the rear entrance, and 1no IPGUARD on the vehicle gate. So 3no IPGUARD panels each servicing the same 25 flats.

Total cost for the entire block (NOT per flat) =  $f_{30} + f_{18} + f_{18} = f_{66} + VAT$  per month (equates to  $f_{2.64} + VAT$  per flat per month).

**EXAMPLE 4** The site has 50 flats. It has 1no IPGUARD panel on the main entrance servicing all 50 flats, 1no IPGUARD on block 1 entrance servicing 25 flats, and 1no IPGUARD on the block 2 entrance servicing 25 flats. So, 3no IPGUARD panels in total with one panel servicing all 50 flats and the other two each servicing 25 flats.

Total cost for the entire site (NOT per flat) =  $\pounds 60 + \pounds 18 + \pounds 18 = \pounds 96 + VAT$  per month (equates to  $\pounds 1.92 + VAT$  per flat per month).

**EXAMPLE 5** The site has 200 flats (4no separate blocks each with 50no flats). It has 4no IPGUARD panels in total with each panel servicing 50 flats.

Total cost for the entire site (NOT per flat) =  $\pm 60 + \pm 60 + \pm 60 = \pm 240 + VAT$  per month (equates to  $\pm 1.20 + VAT$  per flat per month).

### BATICONNECT CLOUD<sup>®</sup> SERVICE Prepaid contract (15 years), price per IPGUARD panel

No. of dwellings	Price per IPGUARD panel for the entire 15 years	
1 to 5	1,080.00	
6 to 9	1,200.00	
10+	120.00 per flat (x number of flats)	

All proximity readers, radio receivers, keypads on all doors, lifts and gates are also automatically INCLUDED within the BATICONNECT<sup>®</sup> CLOUD Service.

# From 10 dwellings upwards, the 15 year pre-paid contract equates to £120.00 (+VAT) per dwelling for 15 years for each IPGUARD panel.

**EXAMPLE 1** My block has 12 flats and 1no IPGUARD panel servicing all 12 flats. Total cost for the entire block (NOT per flat) =  $\pm 120 \times 12 = \pm 1,440.00 + VAT$  for a 15 year contract.

**EXAMPLE 2** My block has 25 flats and 1no IPGUARD panel servicing all 25 flats. Total cost for the entire block (NOT per flat) =  $\pm 120 \times 25 = \pm 3,000.00 + VAT$  for a 15 year contract (equates to  $\pm 120 + VAT$  per flat for the full 15 years).

**EXAMPLE 3** My block has 16 flats. It has 1no IPGUARD panel on the vehicle gate, and 1no IPGUARD panel on the main block entrance. So 2no IPGUARD panels each servicing the same 16 flats. Total cost for the entire block (NOT per flat) =  $(\pm 120 \times 16) + (\pm 120 \times 16) = \pm 3,840.00 + VAT$  for a 15 year contract.

**EXAMPLE 4** My property has 52 flats. It has 1no IPGUARD panel on the main entrance servicing all 52 flats, 1no IPGUARD on block 1 entrance servicing 26 flats, and 1no IPGUARD on the block 2 entrance servicing 26 flats. So, 3no IPGUARD panels in total with one panel servicing all 52 flats and the other two each servicing 26 flats.

Total cost for the entire site (NOT per flat) =  $(\pounds 120 \times 52) + (\pounds 120 \times 26) + (\pounds 120 \times 26) = \pounds 12,480.00 + VAT$  for a 15 year contract.

For configurations not shown, the prepaid 15 year BATICONNECT® CLOUD Service subscription cost will be detailed on quotation.
