All Visitor Main Entrances are equipped with IPVIEW® Full IP/PoE Video Entry panels.

Residents receive a video call from the visitor at the IPVIEW® panel on the ZEUS 7" TFT Touchscreen receiver.

ZEUS

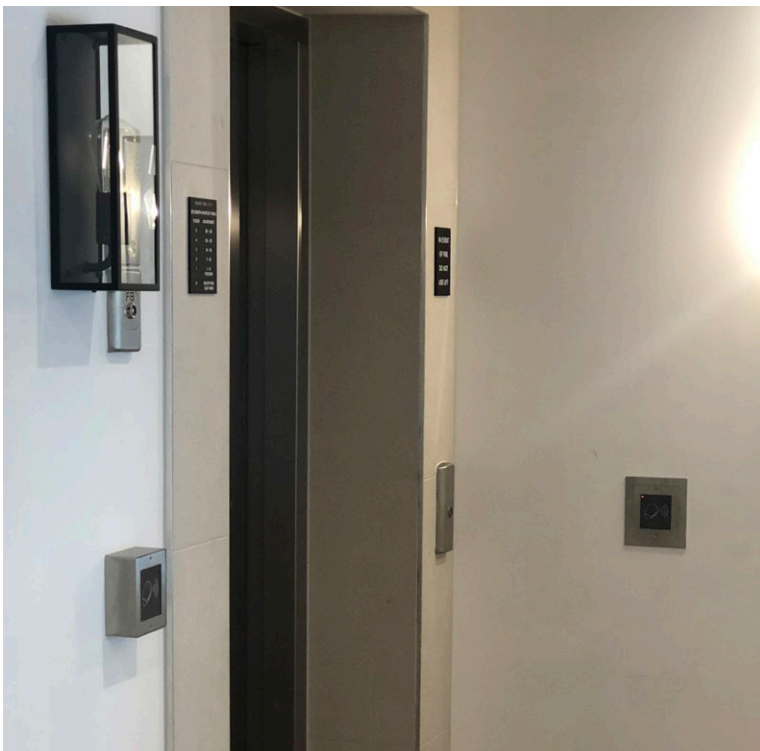

7" TFT Touchscreen

The ZEUS receiver is WiFi enabled allowing residents to connect their smart phones, iPads, tablets. See, talk and open the door from anywhere!

The Bakers Yard development, Phase 1, consists of 189 flats. There are four IPVIEW® panels with integral proximity access control, and a further 24 secondary proximity reader controlled doors and pedestrian gates.

Pedestrian gate into the undercroft carpark is reader controlled.

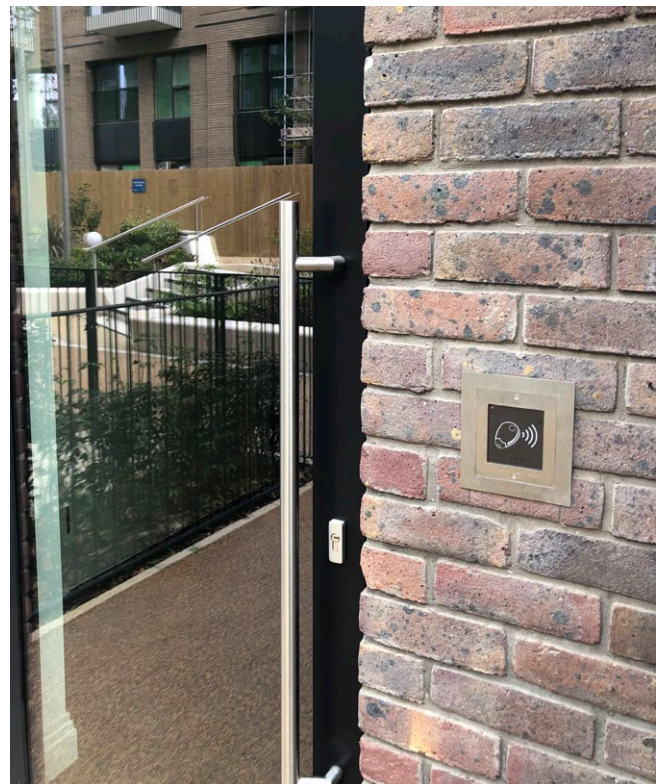

Lift calling is also proximity reader controlled.

Inner lobby doors are proximity controlled.

External resident doors into the building are also proximity reader controlled.

Berkeley Homes

SO SIMPLE TO ADMINISTER

WHY WOULD ANYONE WANT IT ANY OTHER WAY?

The management company can program and monitor the proximity access control system 24/7/365. They can set unlimited, multi-user simultaneous, permission level settings simply by logging onto www.baticonnect.com

Management have total remote programming control and log feedback.

All usage and system events are recorded for security.

No software required

BATICONNECT ANTI-CLONE PROTECT™

The most important security requirement: **GUARANTEED** protection against unauthorised entry into buildings using multiples of a copied/cloned proximity key, and the same for radio transmitters for vehicle gates!

- Attempted fraudulent entry logged and alerts generated for management.
- Forever upgradeable via BATICONNECT CLOUD.™
- 24/7/365 remote access for management for all programming, resident and visitor data etc, www.baticonnect.com (no software required).
