ADDITIONAL SERVICES

PLANNED SERVICING

Regular planned preventative maintenance with proof of attendance and reporting is essential to ensure the security and safety of your building. It also increases the lifecycle of the equipment installed. This is a huge part of what we do for all the major housing associations and building management companies.

EMERGENCY CALL OUTS

Buildings need to be kept secure and safe. Security systems can fail and an appropriate response must be available at all times. Technical support to evaluate, remote monitoring and control, and when necessary emergency engineer on-site attendance must be available 24/7.

COMMISSIONING

Full commissioning means that you receive confirmation that the installation, in addition to compliance with the equipment manufacturer guidelines, complies with all the relevant NSI, SSIP, Secured By Design and electrical safety requirements. Handover includes training and connection with our maintenance department support team.

YALE PRO-KEY [Master Key System] BSEN1303 Grade 5 [or CEN5]

The Yale Key **ID number** is stamped on the key and the cylinder, it **identifies the dealer, suite number and key reference**.

THE SAME SECURITY PRINCIPLES APPLY TO OUR PROXIMITY KEYFOBS AND RADIO TRANSMITTERS

Visible unique ID number on each proximity keyfob and radio transmitter.

All are site and sequentially numbered.
